The Hogue® Tradition

1-800-Get-Grip (438-4747)

The Managing Owners of the Hogue Companies
Aaron Hogue, Patrick Hogue, Neil Hogue & Jim Bruhns

Quality - Selection - Service

Since 1968 Hogue has produced the finest handgun grips and long gun stocks available, and we are proud of it. We make great firearm products that not only look good but function and fit properly as well. Months, and even years, go into designing and testing all of our products, assuring they fit, function and perform properly. Hogue's patented features add up to better accuracy and more comfortable shooting whether in competition, field, or actual combat situations. Many championship shooters, as well as law enforcement officers, use and praise Hogue products. Our grips have been widely accepted and used for years by law enforcement agencies and as original equipment by most leading handgun manufacturers. From basic concepts to design execution, our manufacturing processes include the best ideas, finest materials and finishing (all of which we do ourselves) in our family-owned facilities.

Every Hogue product is made under the direct supervision and quality control of the Hogue Family. Precision equipment is used to fit all our grips and stocks to actual firearms, assuring a proper fit. Our products come at competitive prices as well. Comparisons show that Hogue products are unsurpassed in quality and value. Research and development at Hogue is fun. Whether for work, competition or entertainment, we enjoy shooting. Aaron, Patrick, Neil and many other Hogue staff members are competitive shooters. It is a simple formula for success; we actually use our products and we don't sell anything that we don't or wouldn't use ourselves.

How to Order Hogue Products

Please check with your local dealers to see if they carry Hogue products. Hogue products are available at many fine shops and as more shooters ask for them they will become available at many more. If Hogue products are not available at your local dealer, you may place your order online at www.hoguestore.com, by mail or by calling our toll-free number. You can also use this number to locate the closest Hogue dealer. Please visit our website. It is a great reference tool that allows you to see a photo of your model gun equipped with Hogue products. The site contains thousands of photographs and is open 24 hours a day, 7 days a week!

Call, fax or mail to place an order or request information. Our normal business hours are Mon- Fri 9:00AM - 5:00PM PST. When the voice mail answers push 2 and you will be connected directly with our staff. For after-hours service, please follow the phone instructions and use our voice mail. When you place an order please be sure to include complete information on what you want and where to send it. Be sure to have your 5-digit order code ready prior to ordering.

All prices are subject to change without notice.

The Online Hogue Knowledgebase

The answers to many of your questions may be found by visiting our Knowledgebase. This vast resource allows you to get specific information, add your own help call, add your knowledge to the Knowledgebase and make product suggestions. Find the Knowledgebase online at www.getgrip.com under the support tab.

Customer Satisfaction

Customer satisfaction is our number one priority. Hogue, Inc. will do everything within reason to ensure a happy customer. If you ever have a problem please do not hesitate to contact us. If our staff is not able to take care of you to your satisfaction please ask to speak to Aaron or Patrick Hogue. Hogue, Inc. values your business and welcomes any input on how we can serve you better. Write us. It's rewarding to read the good, and helpful to read the bad (not that we ever get any bad!).

Hogue, Inc., as a general policy, will (among other things):

- **Refund your money.** If you are not satisfied with a Hogue product purchased from us, for any reason, return it to us within 30 days.
For pre-approved returns please call our customer service department for assistance.
- **Promptly replace any non-serviceable Hogue product or one mistakenly ordered incorrectly.**
- **Promptly replace any Hogue product that may be damaged inadvertently within 30 days of your purchase.**
- **Replace any missing hardware free of charge even if you lose it.**
- **Provide technical advice and assistance as needed.**

All Hogue products are supplied with appropriate hardware and complete installation instructions when necessary. Please do not hesitate to call with any questions or problems.

Delivery

The majority of our molded grips and black stocks are shipped from inventory within two business days. Normally, the most popular wood and Extreme Series grip styles are in stock and ready to ship. Because of the many variations available, many wood and Extreme Series grips are made to order and are shipped within 45 days of order receipt. Special order woods are available according to the supply of wood, and depending on availability, delivery of special woods may take several months. We strive to provide the exact wood grip you want in a reasonable amount of time. If you are in a hurry we may be able to substitute a similar style, wood or option and ship immediately from stock. Please mark "OK to substitute wood or options" on your order or call in your order to find out what is currently in stock. Long gun stocks are normally in stock with the exception of our color and camouflage models. The most popular choices are kept in stock but if they require being made to order, they will typically ship within 45 days.

Shipping and Handling

Generally, we ship US Priority Mail unless the customer requests UPS. UPS is reliable, automatically insured and they have an excellent tracking service. You must provide a street address for UPS shipments, as they will not deliver to a P.O. Box.

Shipping charges are subject to change without notice.

Only applicable for domestic shipping in the continental United States.

A Family Owned & Operated Business ~ Our Guarantee ~

The Hogue Companies are owned and operated by Aaron Hogue, Patrick Hogue, Neil Hogue and Jim Bruhns. We are a family business and treat our customers as such. Our business philosophy is one of perfection and customer satisfaction. For this reason, we promise to do our utmost to provide you with the finest products made and guarantee to stand behind each and every Hogue product. We will do everything within reason to ensure a happy customer. We have an excellent reputation and we intend to keep it!

Handgun Grips

1-800-Get-Grip (438-4747)

How to use this catalog to determine the correct order part number for your grip:

Every Hogue product has a unique 5-digit part number.
To determine the proper part number for the product you desire:

- Locate your handgun make & model in the following Semi-Automatic Handgun, 1911 & Revolver pages. Note the 2-digit Gun Code.
- Most models will have variations/limitations. Be sure to read through your firearm's description to understand what is available.
- Pick the style of grip you desire, **Rubber (Blue)**, **Hardwood (Brown)**, **Extreme (Green)** or **Polymer (Burgundy)** from the code generator sections on this page spread.
- Add your Gun Code to **ONE** style from each of the Digit 3, Digit 4 AND Digit 5 sections.
- The five digits you choose will produce your part number for ordering.
- Locate the cost in the price grid located below on this page.

Example: Colt Python in Goncalo Alves standard hardwood with finger grooves and a checkered finish:

Hogue® Grip Materials:

Soft OverMolded® Rubber

Hogue rubber grips are molded from a durable synthetic rubber that is not spongy or tacky, but gives that soft recoil absorbing feel, without effecting accuracy. This modern rubber requires a completely different molding process than ordinary neoprene and results in a much superior grip. The flexibility of our materials and molding process has allowed us to produce superior rubber grips with features that out perform all other makes.

Extreme™ Series Aluminum

Hogue Extreme series grips are machined from aerospace grade 6061 T6 aluminum. Precision machined from solid billet stock to exacting specifications, our grips are designed for a lifetime of use. Aluminum grips are hard Type III anodized and available in 5 colors; Clear, Black, Red, Blue, and Green. Our special order Titanium and Damascus steel grips are polished to a high luster that accentuates the natural characteristics of the material.

Please visit www.aluminumgrips.com

Extreme™ Series G-Mascus™ G10

Extreme G-Mascus grips are precision machined from solid billet stock to exacting specifications and are designed for a lifetime of use. Our G10 grips are available in several colors as well as our exclusive patent-pending G-Mascus patterns. G10 is available checkered or in many attractive and functional textures such as Piranha Grip or Chain Link.

Please visit www.g10grips.com

Fancy Hardwoods

Hogue fancy hardwood grips are in a class of their own and are acclaimed by many as the finest handgun stocks available. At Hogue, all work is done in house by our expert craftsmen. Our hardwood grips are precision inlet on computer numerical control (CNC) machinery then hand-finished on actual factory frames, assuring a proper fit. Finally, they are hand polished to a non-slippery sheen using natural Carnauba wax.

Polymer (See page 16 to order)

Our ivory polymer, Micarta or pearlized polymers dress up any firearm. Each grip is hand-finished to a brilliant shine with no hard sprayed-on finish to crack or peel off with use. Every polymer grip is made with the quality and exacting fit that Hogue is famous for.

STANDARD HARDWOODS

EXOTIC HARDWOODS

If your Gun Code variances allow, you may choose from Wood Revolver Options and/or Big Butt Options.

WOOD REVOLVER OPTIONS

These options are available on most Wood Revolvers. Verify your model allows for the variation. Replace Digit 4 in your code with the following:

DIGIT 4
With Finger Grooves & Accent Stripe with Contrasting Butt Cap 2
With Accent Strip & No Finger Grooves 3
With Accent Stripe & Top Finger Groove Only 4
With Top Finger Groove Only (No Accent Stripe) 5

OPTIONS 2, 3 & 4: ADD \$15.00 TO PRICE

Big Butt Variance

The preceding options may also be available with a Big Butt variance. Confirm your firearm model allows for the Big Butt variation. If so, replace Digit 5 in your code with the following:

[--- 4] Smooth
[--- 5] Checkered
[-- 0 - 6] Wood Big Butt on a Rubber Grip (only if indicated)

BIG BUTT: ADD \$45.00 TO PRICE

To Order: 1. Find your firearm model in the catalog. 2. Check the variation options for your model. 3. Note down your Gun Code. 4. Refer to the Code Generator on pages 4-5 to finish your 5 digit code.

Semi-Automatic Features

Semi-automatic pistols come in a wide array of frame styles, as do our grips that fit them. We have incorporated the most functional design possible for each particular pistol. While some firearms lend themselves to a grip with finger grooves, some are more functional with simple panels. You can be sure that whatever the basic design, all Hogue Grips are designed with improvements in fit, form and function.

Mainspring Housings
Available in Aluminum and G-Mascus G10

Hogue Magrip Kits come complete with a set of precision matched grip panels and a mainspring housing. When mounted on your 1911, the unique design of the grip panels and mainspring housing creates an integrated magwell. Magrip kits are available in Aluminum and G10 materials and in a variety of colors and textures for 1911s.

Extreme™ Series Hybrid Grips

Each of our Extreme Series Hybrid Grips are precision machined from 6061 T6 aluminum, then anodized and accented with a complementary removable hardwood insert to create an individualized look for your firearm.

Fancy Hardwood Revolver Grips

Hogue hardwood revolver grips come standard with proportioned finger grooves, our famous orthopedic hand shape and are all fully relieved for speed loaders. Our exotic woods give you a virtual rainbow of colors to choose from. All of the natural woods pictured in this catalog are shown in their natural colors. No stains or artificial colors are used in our manufacturing process. However, each and every grip is as unique as the wood they are created from so variations are only natural. In addition, many models offer a variant accent strip, butt cap or big butt option to further customize your firearm.

Soft Rubber Grips

Molded in a handsome black color, Hogue's soft rubber grips dress up both blue and stainless handguns. Our exclusive Cobblestone™ texture has become the favored choice among firearm enthusiasts. With its positive nonirritating stippled texture, Cobblestone provides a firm grip with the mobility of a smooth grip when pressure is relaxed. Hogue soft rubber grips give you a lasting precision fit and durability that will provide years of dependable service.

Cowboy Action Shooting

Cowboy Action Shooting is one of the largest and most enjoyable shooting sports! Tradition, authenticity and quality are of prime importance. We produce our quality grips in most of our exotic woods, white and black Micarta, white and black pearlized polymer, ebony, fancy walnut, or in plain or scrimshaw ivory polymer for an authentic look and feel.

OverMolded® Rifle and Shotgun Stocks

Hogue's OverMolded stocks are truly revolutionary. Our stocks are constructed by molding a super strong, rigid fiberglass reinforced skeleton, or "insert," that precisely fits the long gun's action. This rigid skeleton is then OverMolded with a durable, but soft, synthetic elastomer (rubber). During the heat and extreme pressure of injection molding the elastomer adheres chemically as well as mechanically to the skeleton, resulting in a permanent bond between the rubber and the insert. The super strong skeleton gives the stocks their strength, and the precise molded dimensions provide a perfect drop-in fit of your rifle or shotgun action.

Rifle Stock Features

Hogue stocks incorporate every desirable feature required of a fine rifle stock. By adding our unique OverMolded® technology we have created a superior stock compared to all others on the market. Features include a sleek straight comb, palm swells and a "varmint" style forend; all treated with our unique Cobblestone™ texture. Hogue centerfire rifle stocks are designed to free-float the barrel for maximum accuracy and models are available with the proper clearance for standard as well as heavy "varmint" barrels. Our stocks come equipped with QD sling studs and the finest in recoil pads. Hogue recoil pads are formulated and molded from a "super cushion" blend of recoil-reducing materials that surpasses every other pad available. Our special material, coupled with a computer designed internal cushion structure, provides outstanding recoil control and shooting comfort.

Bolt Action Rifles:

Aluminum Pillar Bedding

All centerfire bolt action stocks come standard with aluminum pillar bedding, normally a gunsmith installed custom option costing over \$100. Our molding process and our desire to produce the best product available compelled us to include this feature as standard. Pillar bedding utilizes aluminum bosses embedded in the stock insert at the critical action mounting bolt locations. These aluminum pillar beds guarantee an accurate, rock-solid action fit that will not shoot loose. Aluminum conforms to the rifle action making it superior, even to a steel pillar bed. Hogue stocks are not only the finest synthetic stock available, but are also unsurpassed in value.

Full Length Bedding Block

For the absolute ultimate in accuracy, all Hogue bolt action stocks are optionally available with a precision machined, full length bedding block molded into the stock. This solid aluminum, CNC machined, is a 7075 aircraft aluminum block that completely surrounds the action and extends full length into the forend. This full length block absolutely guarantees the ultimate in accuracy potential by providing rock-solid stability over the full length of the stock. In fact, the Hogue full bed block stock has been independently tested and was the only stock that retained zero movement after a 30 foot drop!

98002 - Mauser 98
Black Full Length Bed Block Stock

Mauser 98

Shotgun Stocks

1-800-Get-Grip (438-4747)

OverMolded® Shotgun Stocks

Hogue shotgun stocks are molded from a super tough fiberglass reinforced polymer assuring stability and accuracy. The grip area of the stock and the entire forend are OverMolded with soft rubber for outstanding shotgun handling characteristics which facilitates fast easy mounting and sight acquisition. The grip also features ambidextrous ergonomic palm swells and is finished with an exclusive recoil cushioning Hogue butt pad. These superior stocks are durable, weatherproof, and non-slip. Hogue shotgun stocks are super comfortable with a standard length of pull. Our "Short Shot" models have a shorter 12" length of pull that is perfect for youngsters or for use with body armor. For Law Enforcement, Hogue shotgun stocks are available in a "Less Lethal Orange" color for easy identification.

Tamer™ Pistol Grip Stock

The exclusive Hogue Tamer pistol grip is also available for your shotgun. The Tamer features Hogue's famous orthopedic hand shape with compound palm swells and proportioned finger grooves and utilizes an internal Tamer recoil cushion that dampens the painful recoil of magnum loads. Hogue shotgun stocks and the Tamer grip come equipped with standard QD sling studs.

Hogue Tactical Products

Hogue has applied our OverMolded® technology to AR15/M16/M4, AK-47/74 and Sig 556 style rifles producing the ultimate grip and forend combinations. The grips are specifically designed to retain the important lines and tactical aesthetics of these rifles while at the same time providing a comfortable rubber grip with finger grooves and palmswells.

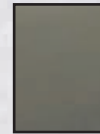

The AR15/M16/M4 forend is a unique two-piece, free-floating aluminum tube available with or without rubber OverMolded surfaces and in standard, medium and carbine lengths. The Hogue OverMolded forend kit for the AK-47/74 includes a soft rubber OverMolded handguard with heat shielding, two uppers and three picatinny rails.

The AR, AK and Sig 556 grips are made to accept our Cargo Management System or most other after-market cleaning and tool kits. The Hogue Cargo Management System fits inside the grip and has a water resistant door providing storage for up to three SureFire®123A batteries or other accessories.

Hogue® Recoil Pads

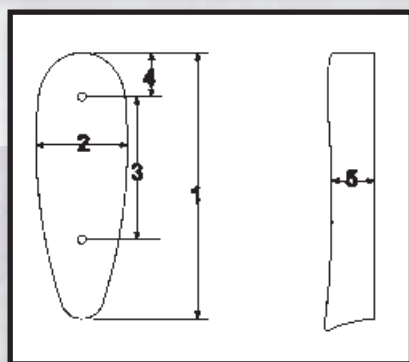

Hogue EZG™ and pre-sized recoil pads are made with an exclusive recoil reducing cushioned elastomer bonded to a super rigid polymer alloy base plate. Hogue pads feature computer designed internal cushion construction combined with a soft elastomer for the ultimate in recoil cushioning and control. The sleek shape of our pads is designed for use in the field where a combination of control and fast mounting is essential.

Hogue pre-sized pads are molded and pre-ground to fit most common rifles and shotguns within .05 inch for easy do-it-yourself installation, eliminating the need for custom grinding to fit.

EZ Grind pads are available in three sizes and are designed to be ground to fit using standard disk or belt sanders. Both the cushioned rubber and base plate grind very cleanly and easily blending with your wood or synthetic stock and there are no steel inserts to run into.

Slings and Sling Swivels

Hogue Slings are made from strong Nylon OverMolded® with a synthetic rubber shoulder pad which provides comfortable secure carry of your favorite rifle or shotgun. The unique molding method produces a pad that does not slip off the shoulder. The pad and nylon sling are completely waterproof and the premium UV resistant materials remain flexible through years of dependable service. Easy slide polymer buckles won't mar your stock and provide a simple quick length adjustment.

Hogue Poly Swivels™ sling swivels are manufactured from a high-strength polymer for maximum durability. In fact, they have a breaking strength far in excess of the force normally required to pull apart conventional steel swivels. Poly Swivels will not rust, are super quiet and will not mar a wood stock. The quick release stud easily attaches to standard swivel studs.

While both our Slings and Swivels are designed to complement your new Hogue OverMolded stock, both are also a perfect addition to your existing stock.

Universal Speed Holster

PowerSpeed™ Carry Holsters

Our polymer formed Carry Hoster has a patented Automatic Retention System (ARS™). When the handgun is holstered, it "locks" into place, providing an extra level of security over the standard open top friction style holsters. A simple straight draw is possible when disengaging the ARS with your thumb while obtaining a natural shooting grip. A cant adjustable paddle and belt plate are included to customize your holster.

PowerSpeed™ Sport Holster

The PowerSpeed Sport Hoster has the same ARS™ and features as our Carry Holster. In addition, the Sport Holster's polymer design has been modified with a deeper cut allowing for a quicker draw release and a view of the ejection port. Supplied with an efficient drop belt plate, the Sport Holster is ideal for competition use.

SlideLOCK™ Duty & Off-Duty Belts

Our SlideLOCK belts are constructed from a unique polymer with a full Nytek lining. The Duty Belt has attractive 4 row stitching and a 1-piece safety polymer belt buckle that locks securely in place with our exclusive SlideLOCK design making it nearly impossible to be removed by a 3rd party. Our Duty Belt has been designed to withstand the rigors of your shooting experience while our attractive Off-Duty Belt, with its 2 row stitching, is perfect for your down times.

The Avenger™

The patented Avenger conversion provides a complete replacement for the upper slide and barrel on 1911-style frames. The Avenger features a fixed barrel for the ultimate in accuracy, instantly converting a stock 1911-style receiver into a match-ready race gun. Installation is so simple you can remove the Avenger and replace the stock slide in a matter of minutes.

HandALL® Tool Grips

Our soft elastomer tool grips cushion tool vibration which greatly increases operator comfort. This makes using your tools more enjoyable. Proportioned finger grooves, ambidextrous palm swells and our unique cobblestone texture create a reduced fatigue factor allowing the operator to use the tool safely for longer periods of time. Like all of our HandALL grips, the HandALL Tool Grip is easy to install yet fits tightly to the tool handle.

Small HandALL

Top 4-1/8" to 4-3/4"

Bottom 4-1/2" to 5-1/4"

Large HandALL

Top 4-5/8" to 5-3/4"

Bottom 5-1/8" to 6-1/4"

Use a piece of string to wrap around your tool handle, then measure to determine fit.

Extreme™ Grip Screws

Dress up your semi-automatic and new Hogue grips with a set of Hogue grip screws. Available for most popular semi-automatic pistols, Hogue offers these fine screws in either slotted or Allen (hex) head styles and in either black oxide or stainless finishes. Both finishes are made from 416 stainless steel and are heat treated for optimum performance. Replace those marred up screws with the standard slotted for the new factory look or use the Allen head screws for a custom look.

Order Code	Extreme Grip Screws Hogue Grip Screws are the strongest in the industry! Our high quality grip screws are custom machined specialty screws available in either standard slotted or Allen (hex).	Insert these 2 digits as digits 4 and 5 in the order number.
